SUMMARY

Multimedia graduate from the University of Palestine (GPA 90.08%) focused on web development, with a web design and development background going back to high school. Built a full Laravel platform as my graduation project, handling all development and testing on a team of five. Self-taught, comfortable on both the front end and the back end, and looking for a web development internship.

SKILLS

Front end	HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, responsive design
Back end	PHP, Laravel, Blade, MySQL
Tools & testing	Git, GitHub, PHPUnit, Composer, npm, Vite
Design & media	Adobe Photoshop, Illustrator, XD, InDesign, Premiere Pro (basic)

PROJECTS

UniLink · Student collaboration platform 2026

Graduation project, team of five · Laravel, PHP, MySQL, Blade, Bootstrap, PHPUnit · github.com/musab-darwish/Unilink

- Developed the entire application, from the database schema and application logic to the interface and automated tests.
- Built course boards with posts, comments and likes, notifications with read and unread status, and a chat for each course with replies to specific messages.
- Built an admin dashboard to manage universities, colleges, majors, courses, lectures and users, and to moderate content.
- Learned automated testing during the project and wrote the test suite with PHPUnit.

SceneLab · Video editing academy 2025

Personal project · HTML, CSS, JavaScript · musab-darwish.github.io/SceneLab

- Built an eight-page responsive site, mobile first: a public homepage and admin pages for courses, users and settings.
- Wrote a reusable CSS framework of my own for the admin pages and keep extending it as I learn.

EXPERIENCE

Freelance Graphic Designer Gaza, Palestine

- Designed visual materials for local clients using Photoshop, Illustrator and InDesign.
